SUMMARY

Full Stack Developer and B.Tech CSIT student (AITR Indore, 2027) with proven experience developing and deploying scalable web applications using React.js, Node.js, Express.js, and REST APIs. Proficient in frontend and backend development, database management, version control with Git, and cloud deployment on AWS. Delivered production-grade full stack systems in agile, fast-paced hackathon environments. Seeking a Full Stack Developer internship to contribute to end-to-end software development and ship impactful features.

EDUCATION

Acropolis Institute of Technology and Research (AITR) <i>B.Tech in Computer Science & Information Technology, RGPV Bhopal — CGPA: 70.80%</i>	Indore, M.P. 2023 – 2027
Sarafa Vidya Niketan, CBSE <i>Higher Secondary Certificate (HSC) — 90.6% — Secondary School Certificate (SSC) — 91.4%</i>	Indore, M.P. 2023 / 2021

TECHNICAL SKILLS

Languages:	C++, JavaScript (ES6+), TypeScript, SQL
Frontend:	React.js, Refine Framework, three.js, HTML5, CSS3, Responsive Design
Backend:	Node.js, Express.js, REST API Development, WebSockets, HTTP Authentication & Authorization
Database:	SQL, Database Design, Data Modeling
Cloud & Tools:	AWS (EC2, S3), Git, GitHub, Agile Development
Concepts:	Full Stack Development, OOP, CI/CD, Blockchain, PMLA Compliance, Data Structures & Algorithms

PROJECTS

Dharohar — <i>Indigenous Cultural Platform React.js, Refine, Node.js, AWS, Blockchain</i>	Feb 2025 – Present
- Developed and deployed a full stack AI-powered web application to digitally preserve India's traditional knowledge using blockchain authentication; adopted at government level. - Implemented the complete frontend using React.js and Refine Framework and integrated RESTful APIs with an AWS-hosted backend; reduced UI development time by 40% using reusable components. - Designed and built role-based access control, asset management workflows, and admin dashboard; made complex blockchain features accessible to 100+ non-technical users.	
RealtimeGuard — <i>Full Stack Fraud Detection System React.js, Node.js, Express.js, WebSockets, SQL</i>	Sep 2024 – Jan 2025
- Architected and shipped a full stack real-time financial security dashboard; integrated WebSocket streams to process and flag live transactions under 1-second latency. - Built the Node.js and Express.js backend with REST API endpoints, SQL database integration, and a fraud detection engine enforcing PMLA compliance rules end-to-end. - Delivered an interactive React.js frontend with real-time alerts; reduced manual compliance review effort by 60% by automating suspicious transaction detection.	

ACHIEVEMENTS & AWARDS

Ranked Top 5 Nationally — AWS AI for Bharat Hackathon, competing against 1000+ teams across India
Secured Runner-up at Void Hack 7.0 — 24-hour national hackathon (Full Stack Development track)
Reached Finalist at IISF Government Hackathon, Chandigarh — 3-day national event by Government of India
Reached Finalist at SolveX Hackathon | Placed 4th at VGI Innovik Hackathon 5.0, National Level

CERTIFICATIONS

Full Stack Web Development — Apna College Sigma Batch
C++ Certified — Universal Informatics
Oracle Certified AI Foundation Associate

LEADERSHIP & ACTIVITIES

Captained school volleyball team to inter-school championship; led 12 members, managed strategy and coordination under pressure.
Competed at 5+ national and government hackathons in fintech, AI, and cultural tech — consistently reached finals delivering full stack solutions and prototypes.
